

# HPE GreenLake for File Storage with HPE Alletra Storage MP Chassis and NVMe Shelf installation services

## HPE Lifecycle Services

The HPE GreenLake for File Storage with HPE Alletra Storage MP Chassis and NVMe Shelf installation service provides the basic installation of HPE Alletra Storage MP hardware that is sold by Hewlett Packard Enterprise or by HPE authorized resellers. The HPE Installation Service is designed to give you the peace of mind that comes from knowing your HPE and HPE supported products have been installed by an HPE specialist in accordance with the manufacturer’s product documentation.

### Service benefits

- Installation by an HPE authorized technical specialist
- Verification prior to installation that all service prerequisites are met
- Delivery of the service at a mutually scheduled time convenient to your organization
- Allows your IT resources to stay focused on their core tasks and priorities
- Full coverage during the warranty period for products that require installation by an HPE authorized technical specialist

### Service feature highlights

- Service planning
- Service deployment
- Installation verification tests (IVTs)

### Service features

Table 1. Service features

Feature	Delivery specifications
Service planning	<p>An HPE service specialist will plan all the necessary activities with the Customer, including the identification of any prerequisites, and schedule the delivery of the service at a time mutually agreed upon by HPE and the Customer, which shall be during local HPE standard business hours, excluding HPE holidays, unless otherwise agreed by HPE. Any service provided outside of HPE standard business hours may be subject to additional charges.</p> <p>The HPE service specialist will verify with the Customer that all service prerequisites have been met prior to delivery of the service.</p>
Service deployment	<p>Service deployment activities include the following:</p> <ul style="list-style-type: none"><li>• Removing the product from the packaging, visually inspecting for damage, and replacing or repairing, at HPE's discretion, any HPE components that were damaged in shipping</li><li>• Installing the product according to the manufacturer's product documentation</li><li>• Installing the product into a previously installed rack</li><li>• Consolidating all packaging materials in a nearby location to be designated by the Customer, and notifying the Customer that the materials are ready for disposal by the Customer</li><li>• Providing basic information to the Customer, including how to place a support call to HPE</li></ul>
IVTs	<ul style="list-style-type: none"><li>• HPE will run the appropriate IVTs required for this service.</li></ul>

## Service limitations

Activities such as, but not limited to, the following are excluded from this service:

- Customer acknowledges and agrees that HPE may use resources outside the country of purchase for the delivery of these services unless otherwise specified as part of a service feature description
- Service deployment will only install the HPE Alletra Storage MP Chassis/Shelf into a Customer-supplied rack. It will not power on or install any cabling. Additional services are required for the switch and software installation
- Service deployment on hardware and/or software not covered by an HPE warranty or HPE support agreement (except as noted in the [Service eligibility](#) section)
- Service deployment on any product covered by a third-party support agreement
- Resolution of hardware-related problems encountered during the verification testing process, unless covered by an active HPE warranty or an applicable HPE hardware support agreement
- Planning, design, or assessment of the Customer's computing environment, except to identify service prerequisites for the product being installed (with the exception of specific activities denoted in the [Service feature highlights](#) section)
- Laying or installation of any cables beyond the required internal array or internal rack interconnect cables
- Reconfiguration of the Customer's existing IT infrastructure
- Services that, in the opinion of HPE, are required due to unauthorized attempts by third-party personnel to install, repair, maintain, or modify hardware, firmware, or software
- Site inspection activities such as a comprehensive analysis of the Customer facility's power, cooling and humidity, airborne contaminant, and vibration levels, and determination of whether the data center's raised floor has sufficient structural capability to accommodate the weight of the tape library to be installed
- Installation of software products as part of basic hardware installation, except as specifically stated in the [Service feature highlights](#) section; such installation may require the purchase of additional HPE Installation Services

## Service eligibility

Only HPE products and HPE supported products that are sold by HPE or an HPE authorized reseller are eligible for HPE Installation Service.

When an existing system or environment into which a product is to be installed under the terms of this service is not covered by a current HPE service contract, a preinstallation inspection, plus additional work as needed to return the system or environment to a supported configuration, may need to be carried out at an additional charge before the installation can be performed.

## Customer responsibilities

The Customer will:

- Ensure that the HPE Support Service for this service is registered within ten (10) days of purchase of the service, using the registration instructions within each package, email document, or as otherwise directed by HPE
- Contact an HPE service specialist within 90 days of the date of purchase to schedule the delivery of the service
- Ensure that all service prerequisites, as identified during service planning, have been met prior to the delivery of this service
- Uncrate the equipment (if applicable) and place it in the immediate location where the installation service will take place
- Allow HPE full and unrestricted access to all locations where the service is to be performed
- Assign a designated person from the Customer's staff who, on behalf of the Customer, will grant all approvals; provide information, for example, IP addresses; ensure that all hardware, firmware, and software that the HPE service specialist will need in order to deliver this service are available and that software products are properly licensed; and otherwise be available to assist HPE in facilitating the delivery of this service
- All cabling and network connections should be preinstalled and functional
- Adhere to licensing terms and conditions regarding the use of any HPE service tools used to facilitate the delivery of this service, if applicable
- Be responsible for all data backup and restore operations
- Be responsible for the disposal of the packaging material

## General provisions / other exclusions

Any service provided outside of HPE standard business hours may be subject to additional charges.

HPE's ability to deliver this service is dependent upon the Customer's full and timely cooperation with HPE, as well as the accuracy and completeness of any information and data the Customer provides HPE.

HPE reserves the right to charge, on a time-and-materials basis, for any additional work over and above the quoted service pricing that may result from work required to address service prerequisites or other requirements not met by the Customer.

Defective hardware, as identified during the installation, will be replaced or repaired under the original vendor warranty terms for HPE supplied or HPE supported products.

Travel charges may apply; consult your local office.

To the extent HPE process personal data on the Customer's behalf in the course of providing services, the HPE Data Privacy and Security Agreement Schedule — HPE Support and Professional Services found at [hpe.com/us/en/legal/customer-privacy.html](https://hpe.com/us/en/legal/customer-privacy.html) shall apply.

## Supplemental terms

The following supplemental terms apply to these services and take precedence in the event of any conflict:

- Upon receipt of an acceptable order, HPE will contact the Customer within seven business days to organize a service delivery date. Service delivery dates are subject to resource availability and may be scheduled up to 30 days from the order acceptance date.
- The Customer must schedule and receive delivery of these services within 180 days from order acceptance. HPE reserves the right to reprice for services not scheduled and delivered within 180 days. Backorders or shipment delays may affect the delivery timeline. Orders for services will expire after 365 days (one year) from the order acceptance date for services not scheduled and delivered, and the Customer will not be entitled to a refund for the unused services.

## Ordering information

This service may be ordered using

- HA124A1#V1E — HPE Alletra Storage MP 2U Chassis Installation Service
- HA124A1#V1F — HPE Alletra Storage MP NVMe Shelf Installation Service

A Customer who requires installation services beyond those provided in this document may purchase HPE Installation and Startup Services or implementation services from HPE, or work with HPE to create a custom-quoted installation service.
